

Birds, blooms and beasties!

The Museum's gardens are bursting with hundreds of different plants, animals, insects and trees.

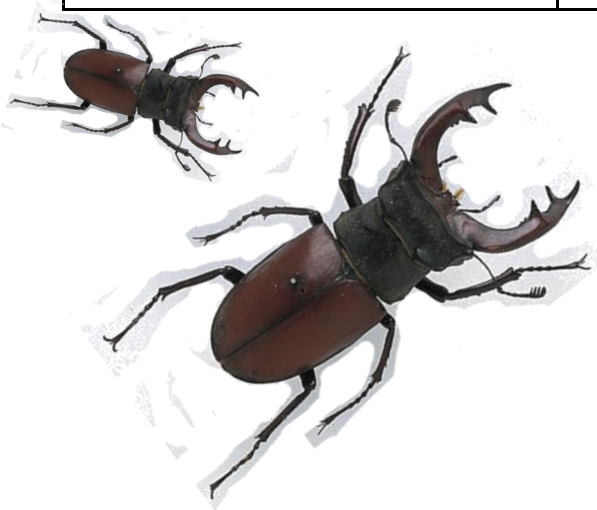

What can you find...

- in the Wildlife Garden?

Look inside the Wildlife Garden. Mini-beasties love it here!
How many different bugs can you count?

BUG	TALLY
Bees	
Snails	
Butterflies	
Spiders	
Ants	

- under the log pile?

Carefully lift up the logs. What can you see?
Which wood-munching bug might live here?

B _ _ _ _ _

- on the wall?

Look for the wooden boxes on the wall.

Circle the garden animal that makes a home in here.

- in the Display Gardens?

Head to our Display Gardens where you'll find loads of blooming flowers. What different colours can you see?

Can you find a scented purple flower?
Give it a sniff! Do you like the smell?

Bees pollinate flowers as they fly from one to the next. Can you see the orange pollen on their legs? Think of two words to describe these creatures.

- in the trees?

There are lots of big trees in the gardens!
Look for an oak tree.

What squirrel treat can you see in it? A _ _ _ _ _

Do a rubbing of an oak leaf in the space below.

Oak Tree leaf
